**INSTITUTIONALIZING THE PHILIPPINE NATIONAL GAMES AND**

**EXPLANATORY NOTE**

Article 14, Section 19 of the Philippine Constitution mandates the State to promote physical education and encourage sports programs, league competitions, and amateur sports, including training for international competitions, to foster self-discipline, teamwork, and excellence for the development of a healthy and alert citizenry. In view of this mandate, the State shall also develop programs and trainings that will encourage its citizens to participate in sports and other physical fitness programs.

It is therefore high time that the State support a genuine comprehensive national grassroots sports program which serves as the country's premier national sports competition and venue for the nationwide talent search for identifying and developing outstanding athletes who have the potential to excel in various sports, and place the country at the forefront of international sports competitions.

In the government's pursuit to execute the constitutional mandate on sports development, former President Fidel Ramos issued Executive Order 163 in 1994 which declared the Philippine National Games (PNG) as the centerpiece program of the

government's national physical fitness and sports development effort. However, the perennial lack of funding in grassroots sports development including the conduct of Philippine National Games, serves as an impediment for us to achieve the objectives of the Executive Order. This Congress aimed to address this by passing the Philippine National Games Bill which was unfortunately vetoed.

It is just right to reiterate that the Philippine National Games is not a duplication of the Palarong Pambansa since the latter is a school sports program of the Department of Education students generally 18 years old and below. Meanwhile, the Philippine National Games is a grassroots competition program of the Philippine Sports Commission for athletes 18 years old and above representing local government units. The PNG may also serve as a primary recruitment platform of the National Sports Associations in identifying athlete-members of the National Training Pool as even out-of-school youth and elite adult athletes can join the PNG.

This bill aims to provide a structure for a truly integrated and comprehensive national sports program, linking grassroots sports promotion to elite sports development, and encourage all local governments to promote the development of sports in the countryside covering all barangays, towns, municipalities, cities and provinces. The PNG will also harness the vast potentials of Filipinos in discovering and developing potential athletes in various sports who could form part of our national pool of athletes and excel in international sports competitions. The bill also encourages and assists various National Sports Association in promoting their respective sports at the grassroots level providing the necessary linkages with local government units.

The passage of this bill will pave the way for improving our sports development programs and other initiatives that will promote the welfare of our Filipino athletes to further elevate our status in the sporting world.

In view of the foregoing, the passage of this bill is earnestly sought.
